Human Source material from which this product was derived was found negative for HIV1, HIV2, HCV antibodies, HIV-1 Antigen, HBsAg and Syphilis by current FDA approved methods. Since no test method can offer complete assurance that an infectious agent is absent, all blood products should be treated as potentially infectious. This product should be handled at Bio-safety Level 2 as recommended in the CDC/NIH manual "Biosafety in microbiological and Biomedical Laboratories", 1999. This product is offered for Research, Laboratory or Further Manufacturing Use Only. Final determination of suitability of this product is the sole responsibility of the user.
