

## CERTIFICATE OF ANALYSIS

PRODUCT NAME: LEUKOCYTE Esterase unsonicated Human

APPEARANCE: Milky white

CAT. NO: I341-10

EXPIRATION: 1 year

FORM: Frozen liquid in a 154 mM NaCl not sonicated

SOURCE: Human Whole Luekocytes

STORAGE: -20 C long term

SYNONYMS: WBC Esterase

UNSPSC CODE: 51131907

HUMAN LEUKOCYTE ESTERASE (whole leukocytes unsonicated) BULK QUANTITIES from 100ml to 50 liter single lot sizes. Custom buffers for human leukocyte esterase available on bulk orders. Human Leukocyte esterase custom fills available.

HUMAN LEUKOCYTE ESTERASE is unsonicated. Human leukocyte(s) esterase isolated from human buffy coats for urine tests. Custom fills for whole leukocyte esterase available.

INQUIRE ON Human Sonicated Leukocte(s) Cat NO: 342-10

Human unsonicated leukocyte(s) esterase (LE) assay: 0.9 ml per liter of urine give's positive reaction for human leukocyte(s) esterase on an Ames or BMD dipstick.

We are a major bulk producer of human leukocyte esterase used in urine controls by major IVD manufacturers around the world.

We also offer for leukocyte(s)for urine test assays in addition aceto acetic acid lithium salt (keytone assays), urobilinogen, direct and indirect bilirubin and amylase.
