

CERTIFICATE OF ANALYSIS

PRODUCT NAME:	C-Reactive Protein (Crp), Polyclonal Anti-Rat Affinity Purified
AB CONCENTRATION:	1mg/ML
CAT. NO:	IRcrp-25a-Z
FORM:	Liquid In Pbs, Ph 7.2
HOST:	Rabbit
IMMUNOGEN:	Rat Crp
PURITY:	Affinity Purified
STORAGE:	2-8C

Polyclonal anti-human C-Reactive Protein Procedure: Rabbits were immunized with rat C-reactive protein (CRP) isolated from rat serum. The resulting antiserum was solid phase absorbed with rat serum lacking crp until it gave a single band with serum containing the acute phase protein.

The specific anti- rat crp was immunoaffinity purified off an antigen containing immunoabsorbant.

Specification: Affinity purified Rabbit anti-Rat CRP gives a single band by IEP and gel diffusion. This product is suitable for ELISA and Blotting applications.

Working Dilutions: Elisa Coating 3ug/ml and Western Blot .1ug/ml
