

CERTIFICATE OF ANALYSIS

PRODUCT NAME:	Elastase, anti-Human IgG Fraction (antiserum)
CAT. NO:	ISEST-80G
FORM:	Liquid in PBS buffer
HOST:	Sheep
PROTEIN CONC:	Typically > 5mg/ml
STORAGE:	2-8C

Polyclonal anti-human elastase Procedure: Sheep were immunized with highly purified human elastase. The resulting anti-human elastase was solid phase absorbed to ensure specificity and an IgG fraction was prepared.

Polyclonal anti-human elastase Specification: The sheep anti-human elastase reacts only with human elastase by IEP and gel diffusion techniques.
