

CERTIFICATE OF ANALYSIS

PRODUCT NAME:	Hemoglobin, Polyclonal anti-Human Affinity Purified
AB CONCENTRATION:	Typically 1mg/ml or greater
CAT. NO:	ISHM-80A
FORM:	Liquid in PBS, pH 7.2
HOST:	Sheep
IMMUNOGEN:	Human Hemoglobin
PURITY:	Affinity Purified
STORAGE:	2-8C

Polyclonal Antibody anti-human hemoglobin procedure: Sheep were immunized with human hemoglobin in Freund's adjuvant. After multiple immunizations the sheep were bled, serum collected and the anti hemoglobin immunoaffinity purified. Custom concentrations of Hemoglobin Antibody available upon request.

The affinity purified polyclonal antibody anti-human hemoglobin forms a single precipitin band with human adult hemoglobin A1, A2, F and S, by immunoelectrophoresis.

Custom polyclonal antibody production available using host chicken, sheep, rabbit, goat or other species not listed. Choose your immunogen from our product line and in 5-6 weeks we can supply. Custom cross linking available Custom Polyclonal antibody concentrations available. Custom Monoclonal Antibody available.
