

Certificate of Analysis

Product: Innovative Grade US Origin Bovine Jugular Vein

Catalog No: IRT014007

Lot No: SAMPLE

Size: N/A

Quantity: N/A

Description: Bovine Jugular Veins are collected on a custom, per order basis from abattoir animals located in the United States. They can be frozen immediately after collection or kept fresh and refrigerated. All Innovative Research Animal Tissues and Organs are for In Vitro Research Use Only and are not to be consumed by animals or humans. Bovine Jugular Veins should be handled with general precaution as if capable of spreading infectious disease. The user assumes all responsibility for its usage and disposal, in accordance with all regulations.

Expiration: Animal tissues and organs have varying expirations with regards to how they were collected. The datasheet received with your particular shipment will have detailed information.

Storage: Varies

This material is intended for Research use or for further manufacture of in-vitro diagnostic products only. Not for use in products licensed under Sec. 351 of PHS ACT.

Caution to Users: The information expressed in this product data sheet represents best efforts to provide accurate and reproducible data about the material. However, test methods and techniques for biologicals may produce variable results; therefore, the user should evaluate the material for suitability in a given system prior to purchase. Lot specific samples are available at the customer's request and users are encouraged to evaluate the sample prior to purchase.
