

Certificate of Analysis

Product:	Calf Thymus Nucleohistone
Catalog No:	IRWBE676
Size:	Varies
Lot No:	SAMPLE
Source:	Calf Thymus
Storage:	Stable. Store at 2-8°C.
Activity:	N/A
Description:	A complex of histone and DNA. Zamenhof, S. Methods in Enzymology, Vol. III, 696 (1957). A dialyzed, lyophilized powder. Store at 2-8°C.

Nucleohistone is a sodium containing complex of histone and deoxyribonucleic acid. The nucleoprotein complex of histone and DNA is referred to as nucleohistone or deoxyribonucleoprotein. Intracellularly, these complexes may be important factors in chromosomal structure and gene transcription.

This material is sold for in-vitro use only in manufacturing and research. This material is not suitable for human use. It is the responsibility of the user to undertake sufficient verification and testing to determine the suitability of each product's application. The statements herein are offered for informational purposes only and are intended to be used solely for your consideration, investigation and verification.
