Description: Innovative Grade™ US Origin CD-1 Mouse plasma is recovered from whole blood donations from normal, healthy mice. This product is being sold for research and/or manufacturing purposes only. It is not to be used on humans or animals. The user assumes all responsibility for its usage and disposal in accordance with all regulations. This material should be handled as if capable of transmitting infectious agents. Please use universal precautions.

Expiration: Animal plasma is stable for up to four years from the date of receipt when stored at –20° C or colder and not subject to multiple freeze/thaw cycles.

Handling: This material is sold for in-vitro use only in manufacturing and research and is not suitable for human use. It is the responsibility of the user to undertake sufficient verification and testing to determine the suitability of each product’s application. The statements herein are offered for informational purposes only, and are intended to be used solely for your consideration, investigation, and verification.
